## ENVIRONMENTAL CHECKLIST

### Purpose of Checklist:

The State Environmental Policy Act (SEPA), chapter 43.21 RCW, requires all governmental agencies to consider the environmental impacts of a proposal before making decisions. An environmental impact statement (EIS) must be prepared for all proposals with probably significant adverse impacts on the quality of the environment. The purpose of this checklist is to provide information to help you and the agency identify impacts from your proposal (and to reduce or avoid impacts from the proposal, if it can be done) and to help the agency decide whether an EIS is required.

### Instructions for Applicants:

This environmental checklist asks you to describe some basic information about your proposal. Governmental agencies use this checklist to determine whether the environmental impacts of your proposal are significant, requiring preparation of an EIS. Answer the questions briefly, with the most precise information known, or give the best description you can.

You must answer each question accurately and carefully, to the best of your knowledge. In most cases, you should be able to answer the questions from your own observations or project plans without the need to hire experts. If you really do not know the answer or if the question does not apply to your proposal, write "do not know" or "does not apply". Complete answer to the questions now may avoid unnecessary delays later. Some answers, such as those for Section 8 - Land and Shoreline Use, may require information that can be obtained from your local (County or City) planning or zoning office. When you contact them, have an accurate description of the location of the property on which the proposal is to be, i.e., Section, Township, Range, Parcel Number, Street Address or major landmarks and crossroads. This will enable them to respond more quickly to your information needs.

The checklist questions apply to all parts of your proposal, even if you plan to do them over a period of time or on different parcels of land. Attach any additional information that will help describe your proposal or its environmental effects. You may be asked to explain certain answers or provide additional information reasonably related to determining if there may be significant adverse impact.

State of Washington

DEPARTMENT OF FISH AND WILDLIFE

Habitat Program: 600 Capitol Way N., Olympia Washington 98501-1091 - (360) 902-2534

ENVIRONMENTAL CHECKLIST  
(WAC 197-11-960)

A. BACKGROUND

1. Name of proposed project if applicable: Lake Dawn, Clallam County  
- Plant triploid (sterile) grass carp to control noxious Curlyleaf Pondweed (*Potamogeton crispus*)
2. Name of applicant: Nils Sundquist
3. Address and phone number of applicant and contact person: 3809 NE Sawdust Hill Rd Poulsbo, WA  
98370
4. Date of checklist prepared: December 20, 2011
5. Agency requesting checklist: Washington Department of Fish and Wildlife
6. Proposed timing or schedule (include phasing, if applicable): ASAP TBA Spring/Summer 2012
7. Do you have any plans for future additions, expansions or further activity related to or connected with this proposal? If yes, explain: Unknown - may need to restock at some point due to predation or natural die off.
8. List any environmental information you know about that has been prepared or will be prepared, directly related to this proposal: standard application packet
9. Do you know whether applications are pending for government approvals of other proposals directly affecting the property covered by your proposal? If yes, explain: No.
10. List any government approvals or permits that will be needed for your proposal, if known:
  - a. Planting permit from Washington Department of Fish and Wildlife.
  - b. Certificate from U.S. Fish and Wildlife Service that the fish shipped are triploids (sterile) and certification that the fish show no sign of disease.
11. Give a brief, complete description of your proposal, including the proposed use and the size of the project. There are several questions later in this checklist that ask you to describe certain aspects of your proposal. You do not need to answer those on this page.
  - a. Plant triploid grass carp to control noxious Curlyleaf Pondweed (*Potamogeton crispus*).
12. Location of proposal. Give sufficient information for a person to understand the precise location of your proposed project, including: street address, if any, and section, township and range (required). If a proposal would occur over a range of areas, provide the range or boundaries of the site(s). Provide a legal description and site plan, if reasonably available. A copy of a vicinity map or topographic map is required. While you should submit any plans required by the agency, you are not required to duplicate maps or detailed plans submitted with any permit applications related to this checklist.  
Lake Dawn, approx. 8 acres, Clallam County Sec 03, Township 29N, Range 6W,  
48.041767,-123.431139, 6 miles south of Port Angeles, south and east of Lake Dawn Rd.

## B. ENVIRONMENTAL ELEMENTS

### 1. EARTH

- a. General description of the site (circle one): Flat, rolling, hilly, steep slopes, mountainous, other: southern exposure bowl at 1900' elevation in Olympic foothills.
- b. What is the steepest slope on the site (approximate percent slope)? 0-15%
- c. What general types of soils are found on the site (for example: clay, sand, gravel, peat, muck)? If you know the classification of agricultural soils, specify them and not any prime farmland. Tight dense upland soils, muck shorelines and lake bottom.  
Are there surface indications or history of unstable soils in the immediate vicinity?  
If so, describe: no
- e. Describe the purpose, type and approximate quantities of any filling or grading proposed. Indicate source of fill. n/a
- f. Could erosion occur as a result of clearing, construction or use? If so, generally describe: n/a
- g. About what percent of the site will be covered with impervious surfaces after project construction (for example: asphalt or buildings)? n/a – 0%
- h. Proposed measures to reduce or control erosion, or other impacts to the earth, if any: n/a

### 2. AIR

- a. What type of emissions to the air would result from the proposal (for example: dust automobile, odors, industrial wood smoke) during construction and when the project is completed? If any, generally describe and give approximate quantities if known. n/a
- b. Are there any off-site sources of emissions or odor that may affect your proposal? If so, generally describe: n/a
- c. Proposed measures to reduce or control emissions or other impacts to air, if any: n/a

### 3. WATER

#### a. Surface

1. Is there any surface water body on the immediate vicinity of the site (including year-round and season streams, saltwater, lakes, ponds or wetlands)? If yes, describe type and provide names. If appropriate, state what stream or river it flows into. Subject proposal is an 8 acre manmade lake whose unnamed outlet stream flows into Ennis Creek south of Port Angeles. Inlet streams are seasonal and year round springs or small non-fishbearing creek/seeps. The lake is within +/- 50 vertical feet of the highest surface water in its drainage basin.
2. Will the project require any work over, in or adjacent to (within 200 feet) the described waters? If yes, please describe and attach available plans. Sterile grass carp stocking
3. Estimate the amount of fill and dredge material that would be placed in or removed from surface water or wetlands and indicate the area of the site that would be affected. Indicate the source of fill material. n/a
4. Will the proposal require surface water withdrawals or diversions? Give general description, purpose and approximate quantities if known. n/a
5. Does the proposal lie within a 100-year floodplain? If yes, note location on the site plan. Not known

6. Does the proposal involve any discharges of waste material to surface waters? If so, describe the type of waste and anticipated volume of discharge. n/a

b. Ground

1. Will ground water be withdrawn or will water be discharged to ground water? Give general description, purpose and approximate quantities, if known. n/a
2. Describe waste material that will be discharged into the ground from septic tanks or other sources, if any (for example: domestic sewage, industrial, containing the following chemicals, agricultural). Describe the general size of the system, the number of such systems, the number of houses to be served (if applicable) or the number of animals or humans the system(s) are expected to serve. n/a

c. Water Runoff (including storm water):

1. Describe the source of runoff (including storm water) and method of collection and disposal, if any (including quantities, if known). Where will this water flow? Will this water flow into other waters? If so, describe. n/a
2. Could waste materials enter ground or surface waters? If so, generally describe. n/a
3. Proposed measures to reduce or control surface, ground and runoff water impacts, if any: n/a

4. PLANTS

a. Check or circle types of vegetation found on the site:

deciduous tree: alder, maple, aspen, other       evergreen tree: fir, cedar, pine, other  
 shrubs       grass       pasture       crop or grain  
 wet soil plants: cattail, buttercup, bulrush, skunk cabbage, other  
 water plants: ~~water lily, eelgrass, milfoil~~, other       other types of vegetation

b. What kind and amount of vegetation will be removed or altered? Grass carp feed almost exclusively on subsurface vegetation, here mostly noxious weed *Potamogeton crispus*.

c. List threatened and endangered species (of plants) known to be on or near the site. None known

d. Proposed landscaping, use of native plants or other measures to preserve or enhance vegetation on the site if any: mechanical control of shoreline noxious weed *Iris pseudoacorus* is also underway under an existing permit, "Lake Dawn Weed Removal / Restoration Project"; native plants are let be

5. ANIMALS

a. Circle any birds or animals that have been observed on or near the site or are known to be on or near the site:

Birds: hawk, heron, eagle, songbirds, other: waterfowl

Mammals: deer, bear, elk, beaver, other: deer, bear, cougar, bobcat, coyote, otter, raccoon

Fish: bass, trout, few sunfish but they are not thriving

b. List any threatened or endangered species known to be on or near the site. None known

c. Is the site part of a migration route? If so, explain. Not known

d. Proposed measures to preserve and enhance wildlife, if any:

The proposal will benefit native species by reducing noxious weeds

## 6. ENERGY AND NATURAL RESOURCES

- a. What kinds of energy (electric, natural gas, oil, wood stove, solar) will be used in order to meet the completed project's energy needs? Describe whether it will be used for heating, manufacturing, etc. n/a
- b. Would your project affect the potential use of solar energy by adjacent properties? If so, generally describe. n/a
- c. What kinds of energy conservation features are included in the plans of this proposal? List other proposed measures to reduce or control energy impacts, if any: n/a

## 7. ENVIRONMENTAL HEALTH

- a. Are there any environmental health hazards, including exposure to toxic chemicals, risk of fire and explosion, spill or hazardous waste that could occur as a result of this proposal. n/a
  1. Describe special emergency services that might be required. n/a
  2. Proposed measures to reduce or control environmental health hazards. n/a
- b. Noise
  1. What types of noise exist in the area that may affect your project (for example: traffic, equipment, operation, other)? n/a
  2. What types and levels of noise would be created by or associated with the project on a short-term or long-term basis (for example: traffic, construction, operation, other)?  
Indicate what hours noise would come from the site. n/a, grass carp are quiet eaters
  3. Proposed measures to reduce or control noise impacts, if any: n/a

## 8. LAND AND SHORELINE USE

1. What is the current use of the site and adjacent properties? Rural residential
2. Has the site been used for agriculture? If so, describe? n/a
3. Describe any structures on the site. Residences and hiking club clubhouse (day use)
4. Will any structures be demolished? If so, what? n/a
5. What is the current zoning classification of the site? R5 w/ smaller grandfathered existing lots
6. What is the current comprehensive plan designation of the site? rural
7. If applicable, what is the current shoreline master program designation of the site? n/a
8. Has any part of the site been classified as an "environmentally sensitive" area? If so, specify. n/a
9. Approximately how many people, would reside or work in the completed project? @30 residents
10. Approximately how many people would the completed project displace? none
11. Proposed measures to avoid or reduce displacement impacts, if any: n/a
12. Proposed measures to ensure the proposal is compatible with existing and projected land uses and plans, if any: The proposal would enhance wildlife habitat and human recreational values

## 9. HOUSING

1. Approximately how many units would be provided, if any? Indicate whether high, middle or low-income housing. n/a
2. Approximately how many units, if any would be eliminated? Indicate high, middle or low-income housing. n/a
3. Proposed measures to reduce or control housing impacts, if any: n/a

## 10. AESTHETICS

1. What is the tallest height of any proposed structure(s), not including antennas; what is the principal exterior building material(s) proposed? n/a
2. What views in the immediate vicinity would be altered or obstructed? n/a

3. Proposed measures to reduce or control aesthetic impacts, if any: n/a

#### 11. LIGHT AND GLARE

1. What type of light or glare will the proposal produce? That time of day would it mainly occur? n/a
2. Could light or glare from the finished project be a safety hazard or interfere with views? n/a
3. What existing off-site sources of light or glare may affect your proposal? n/a
4. Proposed measures to reduce or control light and glare impacts, if any: n/a

#### 12. RECREATION

1. What designated and informal recreational opportunities are in the immediate vicinity?  
Birdwatching, swimming, fishing, walking, rowing/paddling
2. Would the proposed project displace any existing recreational uses? If so, describe. n/a
3. Proposed measures to reduce or control impacts on recreation, including recreational opportunities to be provided by the project or applicant, if any:  
Proposal would enhance recreational options by reducing noxious weeds

#### 13. HISTORIC AND CULTURAL PRESERVATION

1. Are there places or objects listed on, or proposed for, national, state or local preservation registers known to be on or next to the site? If so, generally describe. n/a
2. Generally describe any landmarks or evidence of historic, archaeological, scientific or cultural importance known to be on or next to the site. n/a
3. Proposed measures to reduce or control impacts, if any: n/a

#### 14. TRANSPORTATION

1. Identify public streets and highways serving the site, and describe proposed access to the existing street system. Show on site plans, if any. Lake Dawn Rd. use unaffected by proposal
2. Is the site currently served by public transit? If no, what is the approximate distance to the nearest transit stop? n/a
3. How many parking spaces would the completed project have? n/a
4. How many would the project eliminate? n/a
5. Will the proposal require any new roads or streets, or improvements to existing roads or streets, not including driveways? If so, generally describe (indicate whether public or private). n/a
6. Will the project use (or occur in the immediate vicinity of) water, rail or air transportation? If so, generally describe. n/a
7. How many vehicular trips per day would be generated by the completed project? If known, indicate when peak volumes would occur n/a
8. Proposed measures to reduce or control transportation impacts, if any: n/a

#### 15. PUBLIC SERVICES

1. Would the project result in an increased need for public services (for example: fire protection, police protection, health care, schools, other)? If so, generally describe. n/a
2. Proposed measures to reduce or control direct impacts on public services. n/a

#### 16. UTILITIES

1. Circle utilities currently available at the site: electricity, natural gas, water, refuse service, telephone, sanitary sewer, septic system, other:
2. Describe the utilities that are proposed for the project, the utility providing the service and the

general construction activities on the site or in the immediate vicinity that might be needed. n/a

17. SIGNATURE

The above answers are true and complete to the best of my knowledge. I understand that the lead agency is relying on them to make its decision.

SIGNATURE     *Nils Sundquist*
